

## New FRACTOMAT version under LabVIEW

**Advantages:**

- easy and ergonomic use
- small and compact
- automatic Zero adjustment
- 16 bit resolution of converter
- linearisation of analog outputs
- limit values can be set in mm
- result files available as HTML file
- direct indication of da/dN-values due to input of number of load cycles
- standard USB port
- digital / analog converter
- use of all known KRAK GAGES possible due to higher range of constant current
- upgrade possibility regarding new additional features

**NEW!!!**
